SOFTWARE DEVELOPMENT PROPOSAL

Web-Based Automotive Workshop Management System

Dear Customer,

It is a pleasure to present this proposal for the development of a modern web-based management system designed to streamline and digitize your automotive workshop operations.

The objective of this project is to replace the current Microsoft Excel spreadsheets with a centralized web application powered by Microsoft Azure SQL Database, providing secure, reliable, and remote access from any device connected to the Internet.

The application will be developed using Microsoft .NET for the backend and a modern frontend framework (Blazor, Angular, or React), depending on the project requirements.

Throughout the project, continuous collaboration with the customer will ensure that the final solution fully matches the company's workflow.

Project Scope

The project includes:

- Custom web application development.
- Migration of existing Microsoft Excel data into Azure SQL Database.
- Responsive interface for desktop, tablet, and mobile devices.
- User authentication and role management.
- Customer management.
- Vehicle management.
- Work order management.
- Repair history.

Transforming data into Decisions

- Service management.
- Spare parts management.
- Inventory management.
- Payment records.
- Administrative reports.
- Business dashboard.
- Microsoft Azure SQL Database.
- .NET Web API.
- Modern frontend framework.
- SSL Certificate (HTTPS).
- .COM domain included for the first year.
- Cloud hosting.
- Database backup.
- Basic user training.

Investment

Software Development

One-time payment:

CRC 750,000

Payment terms:

- 50% before development starts.
- 50% upon project completion.

Hosting, Maintenance and Support

The customer may choose one of the following options.

Option 1 - Annual Plan

Annual payment:

CRC 180,000

Includes:

- Cloud hosting.
- Azure SQL Database.
- SSL certificate.
- Basic monitoring.
- Database backups.
- Technical support.

Option 2 - Monthly Plan

Monthly payment:

CRC 18,000

Includes the same services as the annual plan.

Choosing the annual plan provides savings compared to paying monthly.

Important Notes

1. The .COM domain is included free of charge for the first year.
2. Starting from the second year, domain renewal will follow the provider's current pricing.

Transforming data into Decisions

3. Additional features requested after delivery will be quoted separately.
4. Data migration only includes the information provided by the customer.
5. The estimated development timeline will be defined once the project scope has been approved.
6. Ownership of the software will be transferred according to the agreement between both parties.
